

Support our client in Sweden (workplace: home office, preferably Stockholm) as a

Service Engineer (m/f) Machine Tools

The company:

- Our client is an internationally established and technologically leading company with a long tradition in the field of mechanical engineering with approx. 3,000 employees and decades of experience in the development and manufacturing of state-of-the-art machine tools and complete production lines.
- The portfolio includes state-of-the-art manufacturing solutions for a variety of applications in the following areas: automotive, tier-1 supplier, aerospace, plant construction as well as energy.
- **workplace:** home office, ideally greater Stockholm area

The tasks:

- planning and realization of mechanical and electrical repairs, maintenance work and error management for customers in Sweden and neighboring countries (for instance Finland, Denmark and Norway)
- competent contact person for customers in technical questions
- conducting customer trainings with focus on operation, programming and maintenance of machines
- recording and feedback of weak points in the context of continuous product improvement and regular communication with in-house service managers
- if necessary, commissioning of machines and installation of software updates

The requirements:

- successfully completed training as an electrician, industrial mechanic, mechatronic engineer or comparable education
- ideally, experience in the service of machine tools (turning-, grinding-, milling-, gear cutting machines etc.)
- good CNC control skills, preferably in Siemens and Fanuc
- excellent technology skills as well as skillful handling of parts lists, technical drawings and circuit diagrams
- self-assured appearance and manner as well as strong communication skills
- self-responsibility and flexibility due to the fact that working hours depend on (international) customer requirements
- willingness to travel
- sound knowledge of MS Office
- fluent in spoken and written English

Your next step: We look forward to receiving your application documents with the **reference no. 18-151**. For further information, please contact **Sebastian Hergott** on +49 (0) 40/525 00 41 (also on Sundays, 6 p.m. – 9 p.m.). Your application will be treated with complete discretion.
